8 October 2013

BATM Advanced Communications Limited
("BATM" or "the Group")

BATM to join three Tel-Aviv stock exchange indexes

BATM Advanced Communications Limited (LSE: BVC; TASE: BATM), a leading provider of real-time technologies for the networked telecoms and medical laboratory equipment markets, announces that as a result of a special resolution by the Tel-Aviv stock exchange, it expects to join three Tel Aviv indexes on 20 October 2013 - Maagar, Technology and Bluetech 50.

Zvi Marom, CEO of BATM, said: "We are pleased with the decision of the Tel-Aviv exchange to include BATM in the Tel-Aviv indexes. Headquartered in Israel, BATM is a globally recognised company selling technology products around the world, and we have extensive R&D operations in Israel. We operate in two divisions, one in telecommunications and the second in medical equipment. Both have a unique growth history that interests investors globally. We believe the decision to include us in the indexes will have positive effect on BATM's share price."
